

1-25-08

Dear Pat and Company,

I appreciate the great job you did replacing my old 25+ year kitchen velux skylight. The added insulation around adjacent spot lights and eave area have helped, no more

snow melting on roof area which was the case in the past. The new extra wood trim to compensate the old to new install is perfect, looks better than the old.

I shall be getting statements in future from you.

Sincerely,

1/2 W J. L. L. L.
