

Jan. 28, 2008

We were having Woodpecker problems. The birds were pecking holes in our old siding and storing peanuts and food behind the slats of our cedar siding. The front of the house also needed a new living room window and entrance doors.

We had seen many Quarve signs around the neighborhood and talked to Julie at one of the home shows. So we gave Quarve a call. They gave us a reasonable estimate and gave us ways to cut costs by doing part of the work ourselves, along with the new siding and doors we added updated metal covering over the trim.

They kept us up to date on the work schedule. When the work began the workers were easy to get along with and completed the work in a timely fashion. The material used and quality of workmanship was all first rate. They also did a good job of cleaning up.

Now we don't have to stain siding and have an updated look.

We would recommend Quarve Contracting to any one needing the same type of work.
